

The Partners Resource Center is the equivalent of having an extra central midfielder, as the Foundation assists us in collecting and distributing information about field projects across the United States. With such assistance, FieldTurf is able to provide better service, install more fields, and ultimately make a greater impact on the ever-growing numbers who are playing, coaching, and refereeing soccer.

Joe Fields, CEO  
FieldTurf

The meaning of the word “partner” has, in many ways, been overstated and misunderstood in today’s world of sport related sponsorships. This is not the case, however, as it applies to the U.S. Soccer Foundation. Qualities such as focus, professionalism, and return come to mind when asked to describe this organization. Very simply, the U.S. Soccer Foundation is a true partner and understands that word’s meaning with utmost clarity.

Don Wetmore, Vice President of Sales and Marketing  
Kwik Goal

Musco Sports Lighting is pleased to team with the Foundation to help provide the very best experience for players and spectators. Lighting a sports field is a big investment, and this partnership provides real benefits in terms of financial savings and hassle-free installation and operation. We are committed to helping Foundation Community Partners get a high-performance lighting system that will benefit the athletes and fans, the budget, and the environment.

Joe Crookham, President  
Musco Sports Lighting

### Building a Field Just Got Easier

Applying a team philosophy to all of our work, the U.S. Soccer Foundation has assembled a dream team of soccer industry leaders committed to developing the game in this country.

Working with the Foundation and its Partners, you’ll receive answers to all of your questions from experienced professionals and gain access to significant discounts on soccer products and services.

The U.S. Soccer Foundation was established in 1994 to manage the surplus funds generated by the 1994 FIFA World Cup held in the United States. As the Major Charitable Arm of Soccer in the U.S., the Foundation has invested more than \$48 million in the game, supporting hundreds of projects in every state in the country. The Foundation provides grants to programs that develop players, coaches and referees in economically disadvantaged urban areas. Field Grants from the Foundation support the construction and improvement of soccer fields and provide young people with more places and opportunities to play.

## BUILDING SOCCER’S FUTURE

Hudson River Park Pier 40 (New York, NY)

## Partners Resource Center

“The Foundation is proud to work with such a distinguished collection of Partners, each of which has demonstrated a commitment to developing the game of soccer in the United States. Through our Partners Resource Center the soccer community gains access to valuable guidance and support for all of their field building and program development projects.”

– Rob Kaler, Chief Operating Officer and General Counsel, U.S. Soccer Foundation
